

Restoration/IAQ

Whether you're a restoration specialist, claims adjuster, or homeowner, a Delmhorst moisture meter is the only tool that will tell you the job is done right! By checking moisture conditions upon arriving at the job, and monitoring during the drying cycle, you will be able to sign off with confidence that the structure is dry. Our assortment of meters and electrodes give you the opportunity to select the right tools for your application.

NEW TechCheck PLUS – Simplicity Just Got Better!

We know that building inspections aren't always in ideal conditions - Well, here's your solution! The easy to use 2-in-1 TechCheck Plus was designed with simplicity in mind and helps to make even the most demanding inspection simple. The newly updated TechCheck Plus has all the great features you've come to expect along with some new ones.

TechCheck PLUS

Outstanding Features:

- Pin mode:
 - 0.1% - 6% drywall scale, Delmhorst Exclusive - **NEW!**
 - 5-60% MC wood scale.
- Scan Mode (0-300 numerical reference scale)
- Spanish language option – **NEW!**
- Built in Back-light makes reading in dark places a cinch
- Auto-shutoff timer saves battery life
- Alarm lets you know when your pre-selected moisture threshold is reached.
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case
- 9-V Battery
- 1 year warranty

TechCheck PLUS Package Variations:

TechCheck PLUS: Includes meter, carrying case and additional contact pins. Order as **TECHCHECK+W/CS**

TechCheck PLUS Insulation

package:Includes meter, 21-E electrode, extra contact pins for the meter, and carrying case. Order as **TECHCHECK+ /PKG**

Navigator Series - Meeting the restoration contractor's demand for detailed, accurate, and accessible information

The **Navigator Series** moisture meters feature advanced job definition that organizes readings of the floor, wall, and ceiling in affected rooms. Stored readings can be downloaded to a spreadsheet on your PC, providing clear, complete documentation of every job. With features you can't find anywhere else, plus Delmhorst's renowned quality and service, the **Navigator Series** will guide you from wet to dry!

Navigator & Navigator Pro multi-function meters can be used in a variety of Restoration and building inspection applications:

- Check moisture in drywall, insulation, wood, concrete, and plaster.
- Trace leaks and find exterior moisture, and locate dry rot.

Navigator Pro

Basic Operation:

- Simplified controls for quick and easy use.

Enhanced Operation:

- Job definition of up to 5 jobs with unique Job ID numbers.
- Data grouping by specific rooms, with up to 32 rooms per job.

Pin mode:

- 5-60% MC wood scale.
- 0-100 numerical reference scale.
- 0.1% - 6% drywall scale.

Scan Mode:

- 0-300 numerical reference scale

Thermo-hygrometer:

- Measures temp/RH.
- Calculates GPP/dew point.
- Fast response time.

Additional Features:

- Optional Infrared PC Linkage & Software application.
- Rugged construction ensures years of reliable use.
- Sturdy plastic carrying case.
- 1 year warranty.

Navigator Pro Package Variations:

With Case: Includes meter, (1) RHT-S1 humidity and sensor carrying case. Order as NAVPROW/CS.

Basic Package: Includes meter, (1) RHT-S1 humidity sensor, carrying case, 2-E electrode, and PC/KIT software application program. Order as NAVPRO/BP.

Restoration Package: Includes meter, 26-ES electrode, 2-E electrode, 21-E electrode, PC/KIT software application program, (1) RHT-C1 cable and carrying case. Great for the restoration contractor who needs to provide documentation. Order as NAVPRO/RP.

Navigator

Basic Operation:

- Simplified controls for quick and easy use.

Enhanced Operation:

- Job definition of up to 5 jobs with unique Job ID numbers.
- Data grouping by specific rooms, with up to 32 rooms per job.

Pin mode:

- 5-60% MC wood scale.
- 0-100 numerical reference scale.
- 0.1% - 6% drywall scale.

Scan Mode:

- 0-300 numerical reference scale

Additional Features:

- Optional Infrared PC Linkage & Software application.
- Rugged construction ensures years of reliable use.
- Sturdy plastic carrying case.
- 1 year warranty.

Navigator Package Variations:

With Case: Includes meter and carrying case. Order as NAVIGATORW/CS.

Complete Package: Includes meter 26-

ES electrode, 21-E electrode, extra #496 pins for the 26-ES electrode, PC/KIT software application program, and carrying case. Great for the restoration contractor who needs to provide documentation. Order as NAVIGATOR/CP

The PC/KIT is included in the NAVIGATOR/CP (complete package), or may be ordered separately.

PC/KIT

Enables you to download stored readings from the meter to a PC via infrared linking. This software will enable you to:

- Export job data to Excel
- Customize printing options
- View readings and stats in the application program
- Save and print individual or group job readings
- Customize job title
- View data in Fahrenheit or Celsius
- Append notes to each job
- Generate graphical histogram

All these features are provided in a easy to use GUI interface, and are compatible with Windows 95/98/ME/2000/XP.

The PC/KIT is included in the NAVPRO/RP (restoration package), or may be ordered separately.

Accuscan

Quickly scan the area upon arrival to determine moisture levels in damaged and non-damaged areas.

Reduce drying time by checking moisture every step of the way.

Record readings during the drying cycle to monitor progress of drying equipment.

Verify the structure is dry before removing drying equipment.

Features:

- Easy to read analog readout
- Measures %MC in wood over the range of 6%-40%
- 0-100 reference scale for non-wood building materials
- 3/4" penetration
- Durable electrode pads – more rugged than competitors' sensor pads
- Built-in battery and calibration checks
- 1 year warranty
- Carrying Case included
- 9-V battery included

BD-10

Features:

- Popular analog readout
- Two meter scales:
 - Wood Scale - 6% to 40% moisture range. Use for flooring and building material such as wood studs, floor joists, subfloors
 - Reference Scale reads from 0 to 100 on a relative basis. Use on non-wood materials such as concrete, plaster, and insulation
- Connector to attach 21-E or #26-E electrode for deep penetration
- One year warranty

- The BD-10 is our most popular model offering the flexibility of two scales at a reasonable price

BD-10 Package Variations:

With Case: Includes meter, carrying case and extra contact pins for the meter. Order as BD-10W/CS.

Standard Package: Includes meter, carrying case, extra contact pins for the meter and 21-E electrode. Order as BD-10/PKG.

Flooring Package: Includes meter, 26-ES electrode, extra contact pins for the meter, extra #496 pins for the 26-ES electrode and carrying case. Order as BD-10/26/PKG.

26/21 Package: Includes meter, 26-ES electrode, 21-E electrode, extra contact pins for the meter, extra #496 pins for the 26-ES electrode and carrying case. Order as BD-10/26/21/PKG.

EIFS Package: Includes meter, carrying case, extra contact pins for the meter, 21-E electrode, (2) 608/001 contact pins and HP-1 hole punch. Order as BD-10/EIFS/PKG.

Features:

- Digital readout
- Three scales:
 - Wood Scale - 6% to 40% moisture range. Use for flooring and building material such as wood studs, floor joists, subfloors
 - Reference Scale - reads from 0 to 100 on a relative basis. Use on non-wood materials such as concrete, plaster, and insulation
 - Gypsum Scale - 0.2%-50% moisture range. Use on drywall.
- Averages up to 100 accumulated readings
- Set-point alerts you to when a pre-selected MC is reached
- Connector to attach #21-E or #26-ES electrode for deep penetration
- One year warranty
- Truly one of the most versatile moisture meters available today, the BD-2100 is perfect for the professional contractor.
- The BD series, purchased individually, includes a carrying case and extra #2497/A-100 contact pins. Or choose from two different packages depending on your needs.
- The standard package includes a moisture meter, carrying case, #21-E electrode and extra #2497/A-100 contact pins.
- The flooring package includes the moisture meter, carrying case, #26-ES, and extra #496 and #2497/A-100 contact pins.

BD-2100 Package Variations:

With Case: Includes meter, carrying case and extra contact pins for the meter. Order as BD-2100W/CS.

Standard Package: Includes meter

carrying case, extra contact pins for the meter and 21-E electrode.
Order as BD-2100/PKG.

Flooring Package: Includes meter, 26-ES electrode, extra contact pins for the meter, extra #496 pins for the 26-ES electrode and carrying case.
Order as BD-2100/26/PKG.

26/21 Package: Includes meter, 26-ES electrode, 21-E electrode, extra contact pins for the meter, extra #496 pins for the 26-ES electrode and carrying case.
Order as BD-2100/26/21/PKG.

EIFS Package: Includes meter, carrying case, extra contact pins for the meter, 21-E electrode, (2) 608/001 contact pins and HP-1 hole punch.
Order as BD-2100/EIFS/PKG.

J-Lite

Features:

- Microcontroller circuit for increased reliability and accuracy
- 12 bright LEDs -- great for reading in direct sunlight or dark areas and give the most precise readings of any LED meter available today
- Moisture content range from 6% - 30%
- Industry only three year warranty
- Our most economical model, the J-Lite is rugged and easy to use.

RC-1E

Housed in a durable hardwood case and a favorite among dry restoration specialist for years because of its wide range scale.

Features:

- Measures moisture range from 6% to 80% with its three-range analog scale.
- Temperature stable circuit
- Built-in battery and calibration checks
- Auto shut-off timer
- One-year warranty

RC-1E Package Variations:

Meter Only: Includes meter with its own carrying case. Order as RC-1EW/CS

Package: Includes meter, 26-ES electrode and extra #496 pins for the 26-ES electrode. Order as RC-1E/PKG.
