

## Fixed-Radius Mandrel Bend Test Apparatus Electrically Driven Hydraulic Tester for Pipe Coatings On Straps Cut From Pipe With Wall Thickness Up To 1.0" FRMB1-1HP

### Electrically Driven Hydraulic Bend Tester

#### Specifications

Motor	115Volts, 60Hz, 12 Amps, 3450 RPM, 1 HP
Pump	Gear Type
Directional Control Valve:	25 GPM, 2750 PSI, 4-way adjustable relief valve and adjustable pressure-release detent
Pressure Control Valve	30 GPM, 3000PSI, Range: 0-30GPM Relief valve range: 50-3000 PSI
Cylinder	1 1/2" bore, 12" stroke
Filter	10 micron, spin-on (replace as needed based on usage and environment, typically once per year. Grainger part # 1R412)
